The usual calender starts in September but nowadays the Gregorian calender is in use (officially). The names of the different months correspond to some traditional or religious celebrations/festival in that month. In the Julian calender, there are five extra days between August and September called **Gwaqume** (Pagumen, in geez).

January	ldetri (of Christmas)
February	kebaKbti
kbla	March
fajKiri	April
gnbotri (or kbitri)	May
